☐ Site plan / sketch attached ☐ Will submit by: _____

5. BACKFLOW PREVENTION REQUIREMENTS

All new connections are subject to the District's Cross-Connection Control Ordinance 88-1 and the California Cross-Connection Control Policy Handbook (CCCPH). A backflow prevention assembly may be required depending on the use and hazard classification. The property owner is responsible for installation, testing, and maintenance of any required backflow device.

6. AGREEMENT & ACKNOWLEDGMENT

By signing below, the Applicant / Property Owner agrees to:

- Pay all applicable connection fees, deposits, and charges as established by the District.
- Comply with all District rules, regulations, ordinances, and policies now in effect or hereafter adopted.
- Install and maintain any required backflow prevention device(s) in accordance with District and State requirements.
- Allow District personnel reasonable access to the property for inspection and meter installation.
- Be responsible for all construction, piping, and appurtenances on the customer side of the meter.
- Not connect to the District's system until all required fees are paid and inspections are completed.

I understand that this application does not guarantee approval and that connection is subject to District capacity, engineering review, and payment of all fees.
